Tourism in Iowa is about more than places to visit; it’s jobs, economic growth, quality of life, and revenue generation. **It's about investing in Iowa’s future.** Iowa’s tourism and travel industry asks for your support and investment. In turn we offer revenue for the state that can be invested in roads, schools and community development.

Tourism is a proven economic driver for Iowa, generating more than $8.5 billion in revenue and over 69,000 jobs. Iowa invests $4.4 million to promote tourism to the state. States, such as Colorado, demonstrate every $1 invested in tourism marketing generates $12 in state taxes.*

**Tourism works for Iowa.** Its economic impact reaches all 99 counties, traveler spending reduces the tax burden on Iowans, and tourism jobs never get exported.

This publication is produced by the Travel Federation of Iowa and is offered as a resource to the General Assembly of Iowa, Iowa’s Executive Branch, and for all Iowans to understand the significance and positive impact of the tourism industry to Iowa’s economy and quality of life.

Sources for various statistics contained in the booklet are noted throughout and understood to be correct at the time of the January 2019 printing.

Policy Priorities for 2019

- Monitor (through the Iowa Department of Revenue - IDR) the new enforcement language that ALL lodging/transient properties pay the applicable tax (Airbnb, VRBO, etc.) with penalties for noncompliance.

- Extend the length of stay for when hotel/motel tax is collected from 31 days to 90 days. Currently NO lodging tax is collected from anyone that stays longer than 30 days in a lodging facility, including the first 30 days of their stay.

• Iowa’s tourism industry grows the economy and generates jobs.

• In 2017, visitors to Iowa spent $8.5 billion and generated $507.1 million in state tax revenues.

• Traveler spending reduces the tax burden on Iowans and subsidizes important public programs on which Iowans rely such as education.
Tourism does not compete with education – it helps pay for it.

Earlier school start dates reduce the number of domestic travelers to attractions during the month of August. This, in turn, leads to a decrease in consumer spending and less state tax revenues.

Across the state, schools struggle to find additional revenue. Millions in state sales tax revenue will be lost each day school starts earlier – including the local option sales tax for schools.

OKOBOJI CASE STUDY

Travelers spend over $1 million per day in the Okoboji area during the peak summer months of June, July and August.

This directly impacts the Iowa General Fund by adding at least $108,000 each day in state taxes during the summer.

47.6% of Iowa’s General Fund supports the Iowa Department of Education, which stands to gain at least a $51,408 contribution per day during the peak tourism season.

Who’s involved?
The Travel Federation of Iowa (TFI) is a statewide grassroots organization dedicated to growing Iowa’s tourism industry through advocacy and education. The TFI consists of the members of Iowa’s three tourism regions. Each Tourism Region (Western, Central, and Eastern) appoints their Executive Director and four representatives from the tourism region membership to serve on the TFI Board of Directors. The TFI Board of Directors conduct the day-to-day business of the organization.
